## What is the Hour of Code?

A one-hour introduction to computer science. Students and teachers can choose from a variety of activities for kindergarten and up. Activities work on any modern browser, tablet, smartphone, or even with no computer at all. No experience needed by students or teachers. Activities are available in over 45 languages!

## Why computer science?

Computer science is foundational. Every 21st-century student should have the opportunity to learn how to create technology. Computer science is changing every industry on the planet. The

basics of computer science also help nurture creativity and problem solving skills, and prepare students for any future career.

**Computing jobs are the #1 source of new wages in the United States.**

**Computing is the #1 source of wages in the U.S.**

There are more than 500,000 computing jobs open nationwide.

*Computer science graduates enjoy the second-highest starting salary and the highest full-time employment rate (76%) within six months of graduation.*

Students also love it! Recent surveys show that among classes students “like a lot,” computer science and engineering rank near the top—only performing arts, art, and design are higher.
